English

Another game guru game with a very basic "get the gun and escape" mechanic. The graphics are on par with game guru (not great) and the textures are just random.

The game is about 10-15 minutes long

I give him points for adding voice acting but it's still not worth 2 dollars

Here's a gameplay video with my reactions to the game.

<https://www.youtube.com/watch?v=zVZ2UqNSjTs>. Looking, a key, and a very good game.

[Very deep lore, my favorite psychopatic is captain clownsn.](#)

[Top graphics pushing game engine limit](#)

[You think buying this game ? You think alone ? think again !](#)

[Psychopatic : the terrify horror game !](#)

[I'm go insane](#)

[Hahaha. Outlast, eat your heart out. You will do lot laugh... you will cry... by end, you just might turn into a psychopathics, too!](#)

[It's crap, but it's the best 2 bucks I've spent in a while. Freaking hilarious!. WARNING: PERSON WITH HEART MALADY MUST NOT WATCH THIS HORROR VIDEO](#)

[I started off making a video review and then i realised I was film all along. Psychopathics is a tv show for the dark internet!](#)

[Persons give money to see killers and kills and now I have kill and they see me. I go insane. I am now one psychopathics](#)

[hahahahaha](#)

[. The tension. The realism, the PSYCHOPATHICS are the scare!!! 11/10 STILL WAITING FOR A SEQUEL. THE](#)

[CLIFFHANGER IS UNBEARABLE!. I loved this game a great indie horror game parody WILL YOU COME ALIVE OR WILL YOU DEAD](#)

<https://youtu.be/EaNw1SDtMJM>. This is a GameGuru horror game with all the features you would expect: Frustrating map layout, complete darkness, and the whole game is just a key hunt. You can see more about what the game is like and what I think of it, if you need to know more than you can see on the store page, but there really isn't much to it:

WILL YOU COME ALIVE... OR WILL YOU DEAD???

PSYCHOPATHICS! THE TERRIFY HORROR GAME NOW ON STEAM!. Voice acting: 10/10

Graphics: 10/10

Story: 10/10

Level Design: 9.8/10

All in all this best horror game!. Psychopathics is a shoddy creation with the Game Guru engine by someone who can barely create a working test map, much less a full game.

[The basis of Psychopathics is that there are seven enemies plunked into an ugly map and some notes around that you can read. You find a couple keys by walking past all the enemies and unlock roughly four doors before the game ends. I finished the game in 18 minutes.](#)

[The gameplay is so poor and buggy that it constantly breaks in every way imaginable. The enemies will attack you without animations and just stand there looking like they are holding an invisible gun. When you die, you respawn at the start but the game doesn't reset so the enemies can simply trap you in the spawn room.](#)

[The A.I is the worst I've seen in a long time, even for Game Guru trash. The enemies randomly ignore you, start walking into corners, get stuck on walls or simply just pace back and forth.](#)

[The enemies are all slightly edited Game Guru NPCs with random bright colours on them for no reason. Well, except for one of the enemies which is simply an NPC from Game Guru's 'The Asylum' demo project.](#)

[The writing and English language comprehension in this game is possibly the worst I've seen. I understand that not everyone speaks English and that's fine, but if you can't speak the language then don't release it in that specific language.](#)

[None of the text in the game makes any sense and contains a major grammar or spelling error after every three words. Even the name of the game 'Psychopathics' seems to be mistranslated. My assumption is that the game is supposed to be called the plural of 'psychopath', which would be 'Psychopathics'.](#)

[You might think the game title is a combination of 'psychopath' and 'telepathic', except that doesn't make any sense from what I can comprehend in the text of the game.](#)

[The spoken audio is also awful. You can hear the gross mouth movements of the narrator/developer because he seemed to be making out with his microphone while he talked.](#)

[Games like this are some of the worst on Steam because it takes so little time to make a cruddy project with Game Guru that they clog up the storefront. These are not consumer products, they are awful projects that 14-year-olds make to show their friends.](#)

[If you found this review helpful, check out my Curator page to see everything I cover.](#)

<http://store.steampowered.com/curator/29029552/>. This game changed my life. In a world where horror games are bland and obviously manufactured as cheap cash grabs Psychopathics stands an obvious cut above the compition.

[With its captivating blend of atmosphere and psychological thrills words truly cannot do this masterpiece of a horror game justice.](#)

[Surely you must play for yourself to experience horror previously unmatched.](#)
